Ahmad Kamal

Project Architect and Interior Designer

About

Who am I?

I am Ahmad Kamal, an Architect and 3D Visualizer. I graduated in 2018 from Al-Ahliyya Amman University in Jordan, ranking second in my class. With 9 years of professional experience, I have been involved in large-scale projects across Saudi Arabia, Turkey, Syria, and Jordan.

What I do?

My expertise ranges from Project Management to serving as Lead Engineer for specialized woodwork installations, alongside architectural design and 3D visualization. I focus on delivering innovative, high-quality solutions and continuously develop my skills to adapt to evolving design and construction challenges.

Mission

To design and deliver innovative, functional, and aesthetically refined architectural and visualization solutions. I aim to bridge creativity with practicality, ensuring every project meets the highest standards of quality and client satisfaction.

Vision

To establish myself as a leading architect and 3D visualizer in the Middle East, recognized for excellence in project management, specialized woodwork engineering, and creative design that shapes modern living and working environments.

Professional Project

I am committed to continuous professional growth by exploring the latest tools, technologies, and design methodologies in architecture and 3D visualization. My learning path includes advanced BIM applications, sustainable design strategies, and specialized training in joinery and fit-out works. This dedication ensures I stay ahead of industry trends and deliver innovative, high-quality solutions.

Skills

Design & Planning

- Conceptual & Detailed Design
- Interior & Exterior Visualization (3D Renders, Animation)
- Space Planning & Functional Design

Project Management

- Project Management & Coordination
- Technical Supervision (Woodwork & Fit-out Works)
- Shop Drawings & Material Submittals

Technical Proficiency
